DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

2. Claims 1-2 are rejected under 35 U.S.C. 102(e) as being anticipated by Yoshino (U.S. Pat. No. 5,548,304).

As to claim 2, Yoshino (Figs. 1-3) shows the following claimed subject matter:

- a) An OSD display apparatus (col. 4, lines 26-37), comprising an OSD source remote controller for generating an OSD cursor display command on a screen (col. 4, lines 26-37). Yoshino discloses an OSD source for transmitting a plurality of OSD multi cursor display data by giving each OSD multi cursor display data a peculiar ID and transmitting a selected OSD multi cursor ID and display location information in the case that there is an OSD multi cursor display command from said OSD source remote controller (col. 4, lines col. 4, lines 46-61; figs. 2-3; col. 6, lines 26-40). Yoshino (fig. 1) shows a display apparatus (1) for storing the plurality of OSD multi cursor display data (CS) received from said OSD source in a memory and reading an OSD multi cursor display data having a corresponding ID from said memory (col. 6, lines 26-40).

As to claim 1, method claim 1 corresponds to apparatus claim 2. Therefore, it is analyzed as previously discussed in claim 2 above.

Allowable Subject Matter

3. Claims 3, 5 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims. Claims 3 and 5 are objected because the cited reference does not teach "an MPEG source for supplying an MPEG transport stream to the display apparatus, and an MPEG decoder for decoding an MPEG transport stream and outputting image data."

Claims 4, 6-7 are objected by virtue or dependency.

Conclusion

4. Any response to this action should be mailed to:

Commissioner of Patents and Trademarks, Washington, D.C. 20231

or faxed to: (703) 872-9306 for all formal communications.

Hand-delivered responses should be brought to Crystal Park II, 2121 Crystal Drive, Arlington, VA, Fourth Floor (Receptionist).
